

TEXTBOOK AND SUPPLEMENTARY MATERIALS SELECTION AND ADOPTION

Responsibility for the review and selection of textbooks to be purchased shall rest with the Principal of each school. The Principal is encouraged **by** the School Committee to establish a review committee to assist in the process to determine the textbooks that best meet the curriculum guidelines of the District. The review committee should include teachers who will use the texts and other staff members as found desirable. Students and parents will be encouraged to serve.

Principles that apply generally to the selection of instructional materials and library materials shall apply to textbooks. Additionally, basic textbooks and textbook support materials shall be chosen:

- To advance the educational objectives of the school system and particular objectives of the course program;
- To contribute toward continuity, integration, and articulation of the curriculum; and
- To establish a general framework for the particular course or program.

Because the instructional purposes of textbooks, as stated above, are of such importance, particular care shall be taken in their selection as to content.

Although many points must be examined, the School Committee directs the staff to be mindful of the following considerations:

- The needs of all learners must be provided for.
- Attention should be given to gender roles depicted in the materials.
- The textbooks and textbook support materials should lead the student and teacher beyond the textbook into a wide variety of other materials and educational experiences.
- If the textbook deals with problems and issues of our times, it should present and encourage examination of varied points of view.
- Because textbooks are selected for several years' use, special attention also shall be given **to** their physical characteristics, durability, format and price.

The School Committee recognizes that knowledge is changing and expanding and that it may be necessary to use various types of supplementary materials in addition to the basic and fundamental textbooks.

For the purpose of this policy, supplementary materials shall be defined as any instructional materials other than textbooks including, but not limited to, books, periodicals, newspapers, pictures, diagrams, maps, charts, slides, filmstrips, films, records, audiotapes, and suitable technological applications which relate directly to the adopted curriculum.

The School Committee believes that teachers and administrators should have a large role in selection and recommendation of supplementary materials. Teachers are encouraged to use a wide range of learning aids, provided the expense incurred in purchasing these aids remains within the limits of the budget.
